

UEMS

### **Information on Training in Neurosurgery**

This is a collection of information on training as developed by the UEMS-Section of Neurosurgery and the Joint Residency Advisory and Accreditation Committee (JRAAC).

Title of information is listed as well as reference where the material can be found

1. The European Log Book  
*The revised European neurosurgical electronic logbook of operations*  
(Acta Neurochir (2008) 150:195-198; also to be downloaded from [www.eans.org](http://www.eans.org))
2. European Training Charter with Operative Figures and Competency Table  
*UEMS charter on training of medical specialists in the EU - the neurosurgical training charter (as of February 2007)*  
Acta Neurochir (2007) 149:843-855
3. Assessment Sheet for Progress Evaluation of Trainees  
*EANS Affairs - Presentation of the new Evaluation Sheet*  
Acta Neurochir (2001) 143:851-853
4. Training Assessment Form for Completion by Trainees  
Acta Neurochir (in press)
5. Examples for Rotation Organisation  
*see contributions H.J. Steiger and D. W. Long*  
in "Training in Neurosurgery in the Countries of the EU - A guide to organise a training programme". Springer Wien New York, H.J. Reulen ed. (2004) Suppl. 90
6. European Working Time Directive  
*The European Working Time Directive and the Effects on Training of Surgical Specialists (doctors in training). A position paper of the Sections and National Professional Organisations of Surgical Specialties for the European Parliament*  
Acta Neurochir (2006) 148:1227-1233
7. Report on Neurosurgical Workforce Trends in the European Countries  
*(Task Force "Workforce Planning", UEMS Section of Neurosurgery)*  
*H.-J. Reulen; RAB Hide, M. Bettag, M. Bodosi, M. Cunha e Sa*  
Acta Neurochir (in press)
8. CME and Application for Certification of European and international events.  
UEMS web site: [www.uems.net](http://www.uems.net) → EACCME "new Application Form"
9. European Board Examination.  
*The European Board Qualification in Neurosurgery (EBQNS) A Position Paper of the UEMS Section of Neurosurgery*  
Acta Neurochir (2007) 149:440-441
10. Additional Competence Training
  - a. Endovascular Neurosurgery  
*Standards of Training in Neurointerventional Therapy*  
Acta Neurochir (2007) 149:613-616

- b. Neurosurgical Oncology in preparation
- c. Radiosurgery in preparation
- d. Functional and Stereotactic Neurosurgery in preparation

11. Organisation of Surgical Training in Neurosurgery

H.-J. Reulen and P.A. Winkler Romanian Neurosurgery Volume XIV, 2 - 2007

12. Quality Assessment of Training. A list of recommended educational activities for Training Institutions (in preparation)
